Please Please for the good of the country settle this dispute once and forever This is the best company in the world and you are trying to destroy it WHY? The economy started downward the minute this happened it is so sad what has happened. They have created more jobs and made the technical industry. What are the younger generation thinking work hard and if you do well the govt. gets involved and try's to destroy you. You should be backing them in any way possible not trying to destroy them.
